

Climate-Smart Food-Energy-Water Nexus

Experiential Learning_Panama

March 15-22, 2025

INSTRUCTORS: DRS. JOE ZHUANG, DILIP NANDWANI

- Students will become familiar with circular agriculture applications in different ecological contexts and learn about research-stakeholder interactions for project success.
- Students will learn about the history and diverse cultures of Panama.
- Trip includes visits to local universities, experimental and demonstration units, indigenous villages, Panama Canal and protected areas.

FEWSUS grant covers in-country expenses. Specifically, lodging in shared accomodation, project activities, transportation, meals (incl. lunches, welcome and farewell dinner), ground shared transfer from Knoxville to/from Atlanta.

Students are expected to cover airfare (~\$600 ATL-PTY) and other expenses not covered by grant (e.g. partial meals, personal items and incidentals).

Confirmed students will be required to complete international travel registration with CGE and obtain UT's travelers health insurance (at no cost) <https://cge.utk.edu/intlsos/>

Contact emails: jzhuang@utk.edu; smulville@utk.edu

This trip is partially supported by the National Science Foundation's Food, Energy and Water for Sustainable Urban Systems (FEWSUS) AND NSF Climate Smart Food-Energy-Water Nexus in Smalls Farms (CFEWS) grants, led by the University of Tennessee. For more information, visit <https://fewsus.utk.edu>
